# Wrap-up

**Wesley Benn**  
Chairman  
Revit Technology Conference

## • Remember!

- Little things have a big impact!
  - We have shown you some ideas – now you need to go and experiment
  - Revit offers great leverage – get the initial data right and reap big rewards later
  - Invest! – good templates, good families, good (managed) office standards
  - If you don't know how to do something, don't assume Revit can't do it, ask around
  - Don't save cents only to throw away dollars
  - Read the 'What's new in this release' file
  
- Training:
  - Classroom environment
  - Implementation (in-house)
  - Local user groups
  - Revit Conference events
  
- Resources
  - Roadshow sessions notes available on website from September 1<sup>st</sup>
  - Websites: RUGs ([www.rugsyd.com.au](http://www.rugsyd.com.au)), AUGI, Revitcity, others
  - Books: Autodesk Press, CDV Systems
  - Local user groups

- Remember!

- Competition
  - Opens September 1<sup>st</sup>
  - Must be Revit work
- Feedback
  - Form in the back of your folder
  - Results fed directly into future events
  - LUG question

  - Thursday: Intro and new features workshops (Revit 2009)
  - Friday and Saturday: General Sessions
- Venue
  - Manly Pacific Hotel, Manly Beach, Sydney
- Organisation
  - Committee
  - Speakers

Thanks to a whole lot of people who over the years have helped me to learn Revit,  
and who have contributed some of the tips and images shown here.
